Shah Faisal Colony, Karachi

## EDUCATION

**Bachelors in Industrial and Manufacture Engineering**  
NED University of Engineering and Technology  
Oct 2023 -Oct-2027

**Intermediate (Computer Science)**  
BAMM P.E.C.H.S Government College For Women  
Sep 2021 - Oct 2023

77.27%

**Matriculation**  
White Rose Grammar School  
Apr 2019 - Oct 2021

91.2%

## SOFT SKILLS

- Leadership
- Teamwork
- Time Managment
- Interpersonal Communcation

## ABOUT ME

As an undergraduate student in Industrial and Manufacturing Engineering, my primary focus is on process optimization and system design. I possess proficiency in AutoCAD, MATLAB, and Minitab, which I utilize for engineering design, mathematical modeling, and statistical analysis. Furthermore, I have developed expertise in web development, with practical experience in HTML, CSS, JavaScript, React, and Next.js, through the delivery of dynamic and responsive projects.

## COURSES

**Currently enrolled in Governor Sindh Inititative for Generative AI, Web 3 and Metavarse Tech.**

- Learned Generative AI concepts, including AI models for text, image, and video generation.
- Explored Web 3.0 technologies such as blockchain, decentralized applications (DApps), smart contracts, and NFTs.
- Studied Metaverse technologies, focusing on VR, AR, and immersive virtual environments.
- Gained practical experience through hands-on projects and real-world case studies.
- Developed understanding of ethical implications and emerging trends in AI, blockchain, and virtual technologies.
